

VMP-7580V

Air Compressors

SKU# 5179112

7.5 HP / 80-Gallon Vertical Tank / 208-230V, 60 Hz, 1-Phase

Unlock Your Shop's Full Potential with V-Max Patriot Air Compressor

Featuring the rugged V-Max extreme-duty, four-cylinder pump design, the 7580V-601 is engineered to operate at maximum efficiency under all load conditions. This rugged, two-stage, lubricated reciprocating [air compressor](#) with 100% cast-iron pumps will provide the quality and performance required for every air-intensive application—from automotive and body repair to manufacturing and industrial service.

Features

- Made in USA
- UL, CSA, ASME certified
- 7.5 HP energy-efficient motor
- Cast-iron V-Max Elite pump features simple splash lubrication for total reliability and a "V-4" finned cylinder configuration that provides 360° cooling
- Proven air-cooled design is economical, reliable and environmentally friendly
- Two compression rings and one oil control ring provide excellent oil control and high-efficiency air delivery
- Dual drive belts require less belt tension, resulting in less load on pump bearings, longer belt life and low vibration
- Fully-enclosed belt guard
- Cast-iron pump and heads are more stable under heavy workloads and do not warp from heat like aluminum cylinders with pressed-in sleeves
- Large surface area and cooling fins on cylinders and forced-air after-cooler provide efficient heat dissipation for lower operating temperatures and dryer air. Air compressor runs cooler, oil life is extended and maintenance is reduced
- Tapered roller main bearings provide full contact and support of the crankshaft, and needle-type piston pin bearings properly distribute bearing loads
- Precision balanced flywheel has forced-air fan blades for optimum compressor cooling and life
- ASME-rated safety valve protects the compressor from overpressure and safeguards the operator
- Balanced flywheel and counterbalanced crankshaft result in nearly vibration-free operation
- Readily accessible disc-valves do not require disassembly of compressor piping, for easy accessibility and reduced maintenance cost and downtime

Specifications

Model	TSP-580V-601	VMP-7580V-601	VMP-7580V-603	VMP-10120V-603
SKU#	5179111	5179112	5179113	5179114
